

Premium quality daily supplement of essential vitamins, minerals and amino acids

FERAMO[®] Every Horse

WHAT IS FERAMO[®] EVERY HORSE?

- ✓ Premium scientifically balanced essential vitamin, mineral and amino acid supplement developed for Australian horses
- ✓ Optimally balanced for performance with 11 essential vitamins, 7 essential minerals, 6 amino acids and biotin
- ✓ Promotes excellent coat condition and hoof strength
- ✓ Improves feed uptake and palatability with natural yeast and oilseed meal base
- ✓ Concentrated powder formulation which offers the correct balance of ingredients to assist with the common deficiencies present in a horse's diet

WHY CHOOSE FERAMO[®] EVERY HORSE?

1. Premium Formulation

FERAMO[®] Every Horse has been developed using the correct balance of nutrients to provide horses with a regular, readily usable supply of essential vitamins and minerals which are commonly deficient in the diets of domestic horses. Feeding FERAMO[®] Every Horse ensures your horse has the building blocks necessary to achieve optimum health and vitality including:

- excellent hoof strength and coat condition
- red blood cell formation
- general metabolism
- healthy digestive system and appetite
- efficient utilisation of feed
- effective immune function

2. Promotes healthy hooves

The B-complex vitamin, biotin, can help improve the growth rate and quality of the hoof wall and sole. Daily supplementation can assist with growing out cracks or splits and improving strength and resilience of the hoof wall. As it can take six to nine months for improved hoof growth to reach the full length of the hoof, incorporating biotin into your daily vitamin and mineral supplement can save you time and money by eliminating the need to add an extra supplement.

3. Assists in achieving optimum health

Horses often fail to thrive because their diets are deficient in minerals and vitamins. Supplementation with FERAMO[®] Every Horse will help your horse in meeting its daily vitamin and mineral requirements, leading to improved health, condition and well being.

4. For a gleaming coat

In addition to providing the horse with essential nutrients required for optimum health, the natural oil present in FERAMO[®] Every Horse helps to achieve superior coat condition.

5. Superior palatability

FERAMO[®] Every Horse assists with improved feed uptake and utilisation. Horses love the taste of the natural predigested yeast and oilseed meal base which enhances the palatability of both the supplement and the food to which it is added.

6. Effective immune function

The blend of vitamins provided by FERAMO[®] Every Horse helps to boost immune function to help with daily stresses of life.

7. Freshness and stability assured

The production and packaging of Virbac products is designed to protect and maintain the maximum potency of the vitamins and minerals they contain. You can be confident that with Virbac nutritional products you are getting the goodness of the vitamins and minerals contained for the shelf life of the product.#

Providing recommended storage and usage directions are followed.

8. Foundation supplement

FERAMO[®] Every Horse contains a unique balance between nutrients to correct general dietary deficiencies and imbalances. It is designed as a foundation supplement to which other specific supplements can be added to meet the specific needs of individual horses whether it be to maximise growth, performance or reproduction.

Passionate about animal health

WHEN TO USE FERAMO[®] EVERY HORSE?

FERAMO[®] Every Horse is a 3-in-1 supplement and is recommended for general health and vitality.

Beneficial for:

- Horses with problem hooves
- Horses recovering from illness
- Everyday riding
- Optimum coat condition, mane and tail growth

HOW TO USE FERAMO[®] EVERY HORSE

Recommended for use in all horses, including those with poor hoof quality, foals, pregnant mares and stallions.
